PROFESSIONAL

Full Stack Developer with a focus on scalable applications for business.

Currently leveraging Vue.js, Express.js (Node.js) and MySQL to build intuitive solutions with VS Code.

My extensive experience with Microsoft SQL Server and C# (.NET) using Visual Studio and SSRS along with PHP, HTML and CSS also adds versatility to my skillset as a multi-platform engineer.

I am always seeking new opportunities where I can apply and further develop my expertise.

EXPERIENCE

Software Developer - DP Technologies Group 2018 - 2025

Developed specialized solutions across multiple platforms, including SSRS, SSMS, Windows Server, WPF applications in .NET, as well as VBA to automate data reporting workflows along with integrating, augmenting and extending the core ERP system functionality.

My work also involved creating and updating email marketing content along with maintaining the company website using PHP, CSS, HTML, XML, and JavaScript.

Lead Engineer Underwriters Laboratories (UL) 2016 - 2018

Designed and built kinematic control systems from conceptual design to final deployment for laboratory testing equipment at facilities in the U.S., China and Malaysia.

I used CODESYS (ST) and InduSoft (VB) to create modular software that is easily configured to deploy on various types of testing machines.

EDUCATION

Bachelor Of Science - Computer Information Systems – SVSU Saginaw, Mi. – 2016

Associate Of Science - Computer Information Systems – Mott College Flint, Mi. 2012

Associate Of Science - Computer Occupational Technologies – Mott College Flint, Mi 2012
